

## **UDOT Bidders:**

UDOT is pleased to announce dynamic “**Unofficial Bid Results**” are now available at the following website:

<http://www.dot.utah.gov/index.php/m=c/tid=318>

As the bids are electronically opened at 2:30 P.M. on the date specified, the results are dynamically published to this site. The “**Unofficial Bids**” column lists the bidding projects, all the bidders and the amount of their bid in the order of the lowest bid first. The “**Low Bid**” column shows the Bid Report submitted by the apparent low bidder including the unit prices bid for each item. The low bid report will not be available if the low bid submitted is more than 10 percent over the UDOT Engineers Estimate. If UDOT decides to award a project that is more than 10 percent, the low bid report will be available. The low bid report will not be available if UDOT decides to re-advertise the project.

**NOTE:** If you have the “Unofficial Bid Results” website opened during the opening of bids you will need to ‘Refresh (F5)’ the window in order to update the results.
